**Subject:** follow up from CEQ call

Rob,

I wasn't aware that you planned to participate today or else I would have coordinated beforehand. Tom and my plan was to basically be in receive mode so that we could understand where CEQ was coming from. We understood from you that you were concerned with CEQ getting too much in our knickers, so we planned to be limited in the information we provided.

As far as the FR issue, I don't really see a problem with us providing verbatim text from the EIS that was filed with us. CEQ can then summarize as needed and can coordinate with the action agency. I don't see we have a special responsibility to the agency who filed the document when passing along verbatim text. More than likely, the action agency is simultaneously effecting distribution of the document when they file it with us. I can't see how we would be breaking their "trust." Alternatively, we could adjust the fields that the agencies fill out when they e-file, but I suspect that would take us some time.

Apologies for the comm breakdown on the resolution of the referral from USFWS. Tom and I both had CEQ's response this morning, but had not had the time to summarize and pass to you. We need to figure out a comm protocol depending upon your preferences and capacity to read pages of info.

## Deliberative Process / Ex. 5

Call my cell if you'd like to discuss.

R,  
Kelly
